SumUp Online Payments PrestaShop module
Documentation
Installation&Configuration

Log in to Prestashop Admin Panel and go to Back Office > Modules and install the "SumUp Payments" module. After the installation, you need to configure the module.

Settings

- **Email:** You need to enter your SumUp Merchant email in order to activate the module and receive payments. If you are not registered, you can sign up from here: https://me.sumup.com/login

- **Sumup Client Credentials:** Upload your Sumup Client Credentials JSON file. You can get your Client Credentials from your SumUp account by following the guide: https://developer.sumup.com/docs/register-app/

- **Account Currency:** Select your shop currency corresponding to the one set in your SumUp account

- **Show Zip:** Requires ZIP code from your customers. *Mandatory for US merchants*

- **Popup:** Activate this option to view the payment process in popup. If this option is disabled payment process will be continued in a new page. Popup option is recommended for one page payment views in order to handle all of the process in one page

- **Text:** Text will appear in payment selection. Default text: **"Pay with SumUp"**

- **Logo:** Upload a new image if you want to change the default Sumup logo. Recommended dimension: 65 x 65
